

Special Issue

Interactive Educational Media for the Neural and Cognitive Sciences

Sören Lorenz^{1,3*} and Martin Egelhaaf^{1,2} (Eds.)

urn:nbn:de:0009-3-14332

Citation: Lorenz S & Egelhaaf M (Eds.) (2008). Interactive Educational Media for the Neural and Cognitive Sciences. Special Issue. Brains, Minds and Media, Vol. 3, bmm1433. (urn:nbn:de:0009-3-14332)

Published: May/July 2008

Table of Contents

Editorial

[Interactive Tools and Media in the Neural and Cognitive Sciences](#) | bmm1410

by Martin Egelhaaf

[\[view as pdf\]](#) [\[cite this article\]](#) [\[submit comment\]](#) published May 19th, 2008

I. Simulation Tools

[SNNAP: A Tool for Teaching Neuroscience](#) | bmm1408

by Evyatar Av-Ron, Michael J. Byrne, John H. Byrne, and Douglas A. Baxter

[\[view as pdf\]](#) [\[cite this article\]](#) [\[submit comment\]](#) published May 19th, 2008

[Understanding Neural Maps with Topographica](#) | bmm1402

by James A. Bednar

[\[view as pdf\]](#) [\[cite this article\]](#) [\[submit comment\]](#) published May 19th, 2008

[Simbrain: A visual framework for neural network analysis and education](#) | bmm1411

by Jeff Yoshimi

[\[view as pdf\]](#) [\[cite this article\]](#) [\[submit comment\]](#) published May 23rd, 2008

[Teaching Cognitive Modeling Using PDP++](#) | bmm1406

by David C. Noelle

[\[view as pdf\]](#) [\[cite this article\]](#) [\[submit comment\]](#) published May 26th, 2008

II. Virtual Environments

[Virtual Electrophysiology with SPatch – Applications in undergraduate education](#)
| bmm1403

by Robert C Cannon and Constance Hammond

[\[view as pdf\]](#) [\[cite this article\]](#) [\[submit comment\]](#) published May 19th, 2008

[BrainMaps.org – Interactive High-Resolution Digital Brain Atlases and Virtual Microscopy](#) | bmm1426

by Shawn Mikula, James M. Stone, and Edward G. Jones

[\[view as pdf\]](#) [\[cite this article\]](#) [\[submit comment\]](#) published July 7th, 2008

III. Repositories

[ModelDB in Computational Neuroscience Education – A research tool as interactive educational media](#) | bmm1409

by Thomas M. Morse

[\[view as pdf\]](#) [\[cite this article\]](#) [\[submit comment\]](#) [\[view supplementary material\]](#)
published May 26th, 2008

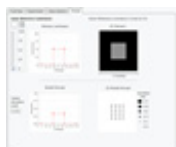

IV. Curriculum Development

[Neurons in Action in Action – Educational settings for simulations and tutorials using NEURON](#) | bmm1401

by Ann Stuart

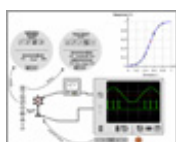

[\[view as pdf\]](#) [\[cite this article\]](#) [\[submit comment\]](#) published May 19th, 2008

[Interactive Curriculum Based on Models of Mind & Brain](#) | bmm1418

by Daniel J. Franklin

[\[view as pdf\]](#) [\[cite this article\]](#) [\[submit comment\]](#) published May 26th, 2008

[Curricular Integration of Interactive Media in Neuroscience Education – Instructional and Technical Perspectives](#) | bmm1427

by Sören Lorenz and Martin Egelhaaf

[\[view as pdf\]](#) [\[cite this article\]](#) [\[submit comment\]](#) published July 7th, 2008
